Equipment

PA

- This plot is a full backline supplied by Repugnant Scum (***A stripped down version may be what's used on any particular night***)
- The band runs a separate Guitar and Bass DI to Chris's mixer for his in-ears.
- **Everything loud as possible.**
- No house lights **except** for green wash and strobes. Stage lights and fog machine provided by band will supply necessary light for the atmosphere being created.
- Samples are controlled by Chris.
- In-Ears controlled by Chris
- Floor lights, and fog controlled by band.
- Incense is used during performance (please specify if this is not desirable at your location)

- We request at the charity of the venue (if capable to do so) **3** complimentary meals not exceeding \$60.00 total expense. Nothing crazy, just burgers or sandwiches or wraps and fries or soup or salad (\$12 - \$15.00 menu items at most).

45min to 1hr 15min

Channel	Instrument	Mic/DI	48v	Boom stand	Effects	Send to monitor	Notes
